Stella Anderson

Re: Freedom of Information Act Request EPA-HQ 2016-002676

Dear Ms. Anderson:

Thank you for your January 11 request for data on imazamox in water, data on imidacloprid in water and copies of peer reviews of both. Enclosed with this response are copies of bibliographies which cite all water related studies for each chemical. If you would like to obtain any of the studies cited on each bibliography, you must complete an Affirmation of Non-Multinational Status form. Section 10(g) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires that all requesters seeking access to data submitted to the Agency by pesticide registrants complete the affirmation form. The form can be downloaded from the following link:

<http://www2.epa.gov/foia/affirmation-non-multinational-status>

An explanation of the form is provided at this link, as well. If you will be requesting the studies on behalf of a client or organization, they must be identified on the specified portion of the form.

Your completed affirmation may be scanned to me at [bressant.janet@epa.gov](mailto:bressant.janet@epa.gov). In addition to your completed form, please include the MRID numbers of the studies that you would like to obtain. Due to the access restrictions associated with the release of registrant-submitted studies, as described under Section 10(g) of FIFRA, any study that you obtain cannot be re-published or posted publicly. If you would like the Agency reviews for some or all of the studies cited on each bibliography provided, please let me know.

If you have any questions, please contact me at (703) 305-6445, or by email at [bressant.janet@epa.gov](mailto:bressant.janet@epa.gov).
